The city was chartered in 1730, and incorporated in 1784.

New Brunswick is a large, progressive and substantial city with large and varied industries, of 30,000 and commercial center of 100,000 population within a 12 mile radius.

Finely situated on the Raritan River, and Delaware and Raritan Canal, with four miles of water front, unsurpassed for large vessels and near the bay and ocean.

On the main line of Pennsylvania R. R. with its vast system of trunk line connections, the terminal of the Raritan River R. R. connecting with N. J. Central and N. Y. and Long Branch R. R. with two lines of freight steamers daily to and from New York, and canal to Trenton and Phila., ample facilities are afforded for travel and shipping, by water and rail. Less than 45 minutes run to either city by rail and service very low.

The general center of an extensive system of Electric R. R's giving advantages unsurpassed elsewhere in the State.
